

APOLLONION PRIVATE HOSPITAL NICOSIA CYPRUS

Driving The Difference In The Health Services

Apollonion Private Hospital

Apollonion Private Hospital is an ultra-modern Hospital purposely built to offer the best and most complete medical care to its patients.

The daily contact of many doctors of various specialties, their exchange of ideas and scientific collaboration, combined with the fully equipped and comfortable areas, makes the medical care unique. Apollonion Private Hospital is situated in Lefkotheon Ave at Makedonitissa area, near Makarion Stadium and at a 200 meters distance from the Archangelos traffic lights. It is built on an area of 8 acres.

Apollonion Private Hospital, consists of 86 beds, 32 double rooms, 8 single rooms, 6 ITU High Intensive Care beds, 4 CCU Low Intensive Care beds, 1 Isolation room and 10 Telemetry rooms. All rooms are equipped with central heating, central air conditioning, bath, radio, television, telephone, internet, central oxygen supply. Patients can communicate with the nurses on duty at any time with the internal nurse-call system available in all rooms.

Apollonion Private Hospital's Emergency Department operates on a 24 hour basis, fully staffed with doctors, Nursing staff and provides ambulance service. In order to provide a better service to our patients and clients we operate a Clinical Laboratory and an M.R.I, CT and X-RAY Department and a Cardiac Catheterizations Centre (Cath Lab) also working on a 24 hour basis.

MRI

In today's competitive market and among the large number of MRI scanners that operate in Cyprus, Apollonion Private Hospital for once more innovates by acquiring the modern MRI scanner MAGNETOM area 1.5 the only efficient and reliable system among all the others running (operating) in the global market at the moment.

24 Hour Ambulance Service

Apollonion Private Hospital, offers a private ambulance service which operates on a 24hour basis. By contacting the Hospital, the well equipped ambulance is set into motion. Frequently, medical care begins in the ambulance according to the doctor's instruction followed by the very well trained Nursing staff.

Casualty Department

It is situated on the ground floor level of the Hospital and it is equipped to handle any emergency case on a 24hour basis. It consists of two examination rooms and a fully equipped trauma surgery, for minor operations.

Surgical Department

Our hospital has 6 operating rooms fully renovated and equipped to handle all types of surgical cases. The nursing staff is trained appropriately for all kind of operations. The department works with all the surgical specialties and operates 24 hours a day, for scheduled or emergency operations.

Clinical Laboratory

Apollonion Hospital's Clinical Laboratory plays a key role in the effective operation of the Hospital. Our goal is to provide high quality service and reliability. The Laboratory has a full range of modern equipment, highly trained technicians, and computer systems that allow the continuous monitoring and management of the execution of the tests. The Clinical Laboratory operates 24 hours a day including weekends and public holidays, in order to provide patients with better service.

Digital Mammography Selenia Dimensions

- 2D imaging or combo mode (2D+3D) imaging in the same compression
